OVERVIEW

Corridor Facts & Figures

By 2040, the region will increase...

- **76%** People
- **86%** Roadway volume
- **113%** Time spent driving
Study Area

Stretching nearly 35 miles from downtown Nashville into Maury County, the south corridor is one of nine major transportation corridors identified in the Nashville Area MPO’s Middle Tennessee Connected and the WeGo Public Transit nMotion Strategic Plan.

Maury County April 29, 2019
OVERVIEW

Potential Transportation Solutions

• Conventional Bus
• Bus Rapid Transit (BRT)
• Light Rail Transit (LRT)
• Commuter Rail
• MagLev
• Monorail
• Personal Rapid Transit

• Intelligent Transportation Systems and Other Emerging Technologies
• Roadway and Intersection Upgrades

Maury County April 29, 2019
Study Outcomes

- Advance Recommendations from nMotion
- Inform GNRC's Regional Transportation Plan and Funding Priorities
- Identify Capital Needs for Transit Providers
- Recommend a Locally Preferred Alternative (LPA)
- Identify Revisions to Local Plans / Zoning
- Outline I-65 and SR 6 / US 31 Improvements
- Help Site New Growth and Development
OVERVIEW

Project Schedule

MARCH
Analysis of Existing Conditions and Trends
Round I

APRIL

MAY
Community Visioning and Initial Screening of Transit Alternatives
Round II

JUNE
Evaluate Transit Investment Alternatives

JULY
Identify a Locally Preferred Alternative

AUGUST
Develop Implementation and Project Development Recommendations
Final

SEPTEMBER

OCTOBER

Maury County April 29, 2019
OVERVIEW

ROUND 1  
APRIL
Provide an overview of the study and an opportunity for you to share your input on transportation challenges and opportunities.

ROUND 2  
JUNE/JULY
Present initial evaluation of transportation options and discuss potential development scenarios around new transit stations.

FINAL  
AUGUST/SEPTEMBER
Gather feedback on detailed evaluation of alternatives.
Regional Transportation Improvement Program

An overview of transportation projects scheduled for implementation through 2040 including more than $1.5 billion of roadway and transit investments programmed through 2020.
nMotion

An overview of public engagement, strategic recommendations and key actions for improving transit in Middle Tennessee, and a discussion of immediate and long-term next steps.

Maury County April 29, 2019
Case Studies

An exploration of case studies from around the nation of a variety of transit and transportation options to address the anticipated growth in this corridor.
Land Use / Development

Local planners are available to discuss ongoing and future land use and development in your community and along the corridor.
Technology / Mobility

GNRC is currently undertaking a Smart Mobility Assessment to identify opportunities for technology investments and to explore how connected, multimodal systems can work together.
